Professional Experience and Responsibilities

I am the CQC Registered Manager, Principal Dental Practitioner, and joint owner of our family-owned dental practice, Michael Dental Care, Cehlttenham, where I have practised continuously since 2005.

For over 24 years I have delivered an extremely broad spectrum of private dental care to children and adults of all ages, encompassing restorative, periodontal, endodontic, prosthetic, and minor oral surgical treatment.

I accept instructions from both claimant and defendant solicitors and medico-legal agencies. I prepare CPR 35 compliant reports on Breach of Duty and Causation, Condition and Prognosis, and Screening and Preliminary Opinion. I examine patients in support of personal injury and clinical negligence claims, and produce desktop reports based on clinical records and radiographs. My areas of particular experience include periodontal negligence, restorative and prosthodontic failures, endodontic complications, delayed diagnosis, and cases involving multiple treating clinicians.

I also conduct dental practice inspections and advise on all aspects of General Dental Council investigations and fitness to practise matters.
